

# Annual Regulatory Compliance and Quality Report

**BDO LLP June 2015**

**Audit 2014/15**

**Public Sector Audit Appointments Limited (PSAA) is an independent company limited by guarantee incorporated by the Local Government Association in August 2014.**

**The Secretary of State for Communities and Local Government delegated statutory functions (from the Audit Commission Act 1998) to PSAA by way of a letter of delegation issued under powers contained in the Local Audit and Accountability Act 2014.**

**The company is responsible for appointing auditors to local government, police and local NHS bodies, for setting audit fees and for making arrangements for the certification of housing benefit subsidy claims.**

**Before 1 April 2015, these responsibilities were discharged by the Audit Commission.**

# Summary report

## Introduction

- 1 Public Sector Audit Appointments Limited (PSAA) monitors the performance of all its audit firms. The results of our monitoring provide audited bodies and other stakeholders with assurance that auditors within our regime are delivering high-quality audits.
- 2 There are two strands to our monitoring:
  - audit quality- applying our annual quality review programme (QRP) to the audit work undertaken for the year ending 2013/14; and
  - regulatory compliance- reporting quarterly on audit firms' compliance with our 2014/15 regulatory requirements as set out in the Terms of Appointment<sup>I</sup>.
- 3 The audit quality and regulatory compliance monitoring for 2014/15 incorporated a range of measurements and checks comprising:
  - a review of each firm's latest published annual transparency reports;
  - the results of reviewing a sample of each firm's audit quality monitoring reviews (QMRs) of its financial statements, Value for Money (VFM) conclusions, Whole of Government Accounts (WGA) and housing benefit (HB COUNT) work. Our review included assessing compliance with the HB COUNT guidance;
  - an assessment as to whether we could rely on the results of each firm's systems for quality control and monitoring<sup>II</sup>;
  - a review of the Financial Reporting Council's (FRC) published report on the results of its inspection of firm audits in the private sector;
  - the results of our inspection of each firm by the FRC's Audit Quality Review team (AQR) as part of our commissioned rolling inspection programme of financial statements and VFM work;
  - the results of each firm's compliance with 17 key indicators relating to Terms of Appointment requirements<sup>III</sup>;
  - a review of each firms' systems to ensure they comply with our regulatory requirements<sup>IV</sup>; and
  - a review of each firm's client satisfaction surveys for 2013/14 work.
- 4 This report summarises the results of our monitoring work for BDO LLP (BDO).

---

<sup>I</sup> Previously these requirements were set out in the Standing Guidance for Auditors issued by the Audit Commission.

<sup>II</sup> These assessments were undertaken by the Audit Commission prior to 1 April 2015.

<sup>III</sup> Results of compliance against the 17 indicators were published by the Audit Commission prior to 1 April 2015.

<sup>IV</sup> These assessments were undertaken by the Audit Commission prior to 1 April 2015.

## Overall performance

5 The firm is meeting our standards for overall audit quality and our regulatory compliance requirements. We calculated the red, amber, green (RAG) indicator for overall audit quality and regulatory compliance using the principles detailed in Appendices 1 and 2. For 2014/15, BDO's combined audit quality and regulatory compliance rating was amber.

Figure 1: 2015 Comparative performance for audit quality and regulatory compliance

BDO	DT	EY	GT	KPMG	Mazars	PwC
-----	----	----	----	------	--------	-----

6 The firm has improved its performance against the regulatory compliance indicators since last year, with all but one of the 2014/15 indicators scored as green. However, the firm scored red against the indicator measuring delivery of whole of government accounts (WGA) submissions and it needs to ensure this is improved on for next year.

7 The firm's overall weighted audit quality score has decreased slightly from last year, however the satisfaction survey results show that audited bodies are satisfied with the performance of BDO as their auditor.

## Detailed report

### Quality review programme

#### *FRC Inspection*

**8** Every year each firm provides a self-assessment in the form of a statutory transparency report. Our review of the BDO transparency report did not highlight any significant issues of note.

**9** Annually, the FRC publishes reports on the audit firms subject to full scope FRC inspections (including firms in our regime), as well as an overall annual report. We place reliance on the work of the FRC, which reviews the firms' systems and processes for ensuring audit quality and reviews a sample of their audits of public interest entities. In its latest public report (May 2015) on the firm, the FRC concluded that audit procedures were performed to a good or acceptable standard for seven of the audit engagements reviewed, with one audit requiring significant improvement.

**10** In addition, the FRC produces an annual overview report on the profession based on its audit quality inspection activities in the year. The FRC's overall conclusion in this report was that '*...the 2014/15 inspection results are consistent with our overall judgment that audit quality is improving.*' (FRC Annual Report 2014/15, 29 May 2015).

**11** The FRC have identified key issues in its annual report which, profession wide, should be addressed in order to improve audit quality. These were:

- a need for auditors to improve their scepticism in challenging the appropriateness of assumptions in key areas of audit judgment such as impairment testing and property valuation;
- a need for an improvement in the sufficiency and appropriateness of audit procedures being performed. This is common to many audit areas including revenue recognition; and
- a need to adequately identify the threats and related safeguards to auditor independence and to appropriately communicate these to audit committees.

**12** We have raised these issues with BDO and with all other firms in our regime; and we will continue to monitor progress in these areas.

**13** We also commissioned inspections of all firms by the FRC for this year's QRP. The AQR inspected one 2013/14 audit file and one VFM conclusion file from BDO's PSAA work and did an updated commentary on the applicability of firm-wide procedures to our audits. Having considered the review points raised by the AQR, we assessed the audits inspected as acceptable with limited improvements required for the financial statements audit and as acceptable overall with improvements required for the VFM conclusion work.

**14** The improvement points raised by the AQR, from across the firms, following this year's programme of work for PSAA were:

- a continuing need to review, challenge and consider the reasonableness of management's documents and assumptions with respect to evidence obtained for the VFM conclusion, particularly in relation to increasing funding gaps at local government organisations; and in relation to the consideration of savings plans, the levels of reserves and budgetary controls;
- a need to clearly justify and document materiality considerations and not default automatically to the top of the materiality range;
- a need to consider property valuations as significant risk areas, particularly to ensure that when using external valuers in this respect they review and challenge management valuations. In addition, audit teams needs to verify the completeness and accuracy of source data used by

experts and to evidence the consideration of ensuring that assets are revalued on the appropriate cycle in accordance with accounting policies; and

- a need to evidence journals selected for testing by audit teams, while improving procedures to ensure the completeness of the population of journals considered for testing and following up on any identified control weaknesses.

**15** We have combined our scores for the AQR inspections for PSAA with the firm's QMR scores in the relevant sections in the rest of this report. These improvement points are included in Appendix 4.

### *QMR programme*

**16** PSAA sets quality standards for its appointed auditors and monitors their performance against them. The principal means of monitoring and evaluating the quality of auditors' work is the annual QRP. For 2014/15 we relied on each firm's own quality monitoring arrangements.

**17** All firms agreed to follow PSAA's methodology and reporting format for their QMRs for WGA returns, VFM conclusions and HB COUNT audit work and use their own methodology for assessing work on the financial statements (converting the financial statements results to our scoring system). We concluded that BDO's QMRs were sufficiently detailed and rigorous for us to place reliance on all of the reviews provided by the firm.

**18** Each firm scored their QMRs using a common four-point scale, with 3 being the highest and 0 being the lowest. A score of 1 is our benchmark for acceptable performance. The full assessment scale is detailed in Table 1 and we calculated the score for overall audit quality on a weighted assessment using the weightings detailed in appendix 1.

**Table 1- PSAA assessment scale**

<b>Score</b>	<b>Descriptor</b>
3	Good, no improvement required
2	Acceptable with limited improvements required
1	Acceptable overall with improvements required
0	Improvements required which are individually or collectively significant

**19** BDO's score for overall audit quality was 2.08, compared to an all firm average of 2.19. This was a reduction on last year's score of 2.36, although this year we used a slightly amended scoring base<sup>1</sup>.

**20** Figure 2 shows the assessment of BDO's overall audit quality performance in comparison to other firms.

---

<sup>1</sup> The prior year assessment included consideration of Health Quality Accounts and Certification work which are not included in the current year assessment.

Figure 2: 2015 Comparative performance for audit quality

21 Our QRP methodology is designed to highlight any specific weaknesses at individual file level, specifically where our benchmark score of 1 is not met, which may have ordinarily been masked behind a high average score across the various elements (Financial statements, VFM, WGA and HB COUNT) of the QRP.

22 We have calculated a red, amber, green (RAG) indicator for each element of the QRP, using the principles detailed in Appendix 2, as well as for overall audit quality. Where a firm scores an average of less than 2, or has any scores of 0, a rating higher than amber in that element is not possible.

23 For 2014/15, BDO’s overall rating for audit quality was amber. We consider each of the individual elements making up this rating below.

Figure 3: 2015 Comparative performance for audit quality

**Financial statements audit work**

24 The firm provided the results of three QMRs for financial statement audit files. We reviewed the result for all of these files and agreed with two out of the three firm assessments. In one case, we scored an assessment lower by one grade, from a 3 to a 2 as limited improvement needs were identified by the reviewer. In addition, the AQR review for PSAA provided a score for one additional financial statements assessment.

25 The improvement areas from these individual QMRs and the AQR review included:

- ensuring there is sufficient explanation documented on file to support the conclusions from all audit testing;
- ensuring there is always sufficient challenge of the narrative disclosures within accounts.

26 Figure 4 shows the comparative performance for financial statement audit work based on the results of the QMRs and AQR review. BDO's average score was 2.00 compared to an all firm average of 2.07.

Figure 4: 2015 Comparative performance on financial statements work

27 For 2014/15, BDO's rating for financial statements work was green.

Figure 5: 2015 Comparative performance for financial statements audit work

**Whole of government accounts returns**

28 The firm provided the results of two QMRs for WGA returns. We reviewed these and agreed with the assessments.

29 The main improvement area from these individual QMRs was to ensuring that the WGA pack is reconciled to the primary statements and notes on a line by line basis.

30 Figure 6 shows the comparative performance for WGA return audit work based on the results of the QMRs. BDO's average score was 1.00 compared to an all firm average of 2.43.

Figure 6: 2015 Comparative performance on WGA work

31 For 2014/15, BDO's rating for WGA work was amber because of the relatively low score (average less than 2) on WGA audit work.

Figure 7: 2015 Comparative performance for WGA work

**VFM conclusion audit work**

32 The firm provided the results of two QMRs for VFM conclusion audit files. We reviewed the results and agreed with both of the assessments.

33 In addition, the AQR review for PSAA provided a score for one additional VFM conclusion assessment.

34 The improvement areas from these individual QMRs and the AQR review included:

- ensuring that VFM conclusion reporting makes clear the distinction between matters considered to be “significant risks” and other matters.

35 Figure 8 shows the comparative performance for VFM audit work based on the results of the QMRs and AQR review. BDO's score was 2.33 compared to an all firm average of 2.31.

Figure 8: 2015 Comparative performance for VFM conclusion audit work

36 For 2014/15, BDO's rating for VFM conclusion work was green.

Figure 9: 2015 Comparative performance for VFM conclusion audit work

**Housing benefit work**

37 Each year auditors certify local authority claims for housing benefit subsidy to the Department for Work and Pensions (DWP). They are required to undertake this work using specific guidance and tools (HB COUNT) which are agreed annually with the DWP. HB COUNT sets out the approach and work needed to certify the subsidy claim form. It includes a requirement to test a sample of cases to check that benefits have been awarded in accordance with benefit regulations and that subsidy has been properly claimed.

38 The firm provided the results of two QMRs for HB COUNT audit work. We reviewed the results of these and we agreed with one of the firm’s assessments. For the other review we scored the assessment lower by two grades, from a 2 to a 0. This was because of the type of improvement needs identified, specifically around the need to follow the specified procedures agreed with DWP for the HB COUNT approach for all areas and substantively test where issues had been identified in the prior year.

39 Figure 10 shows the comparative performance of each firm based on the QMRs. BDO's average score was 1.50 compared to an all firm average of 2.24.

Figure 10: 2015 Comparative performance for HB COUNT audit work

40 For 2014/15, BDO’s rating was amber because one score of 0 was awarded to HB COUNT audit work.

Figure 11: 2015 Comparative performance for HB COUNT audit work

## Regulatory compliance

### Systems for compliance with our regulatory requirements

41 In 2013/14 the Audit Commission (the Commission) reviewed the systems and procedures at BDO for ensuring compliance with our regulatory requirements. The Commission's conclusion was that it could place reliance on the firm's systems and procedures for monitoring compliance with its regulatory requirements.

42 For the 2014/15 review, BDO confirmed to the Commission that the systems and procedures for regulatory compliance and information assurance arrangements were the same as those in the previous year. Nothing came to the Commission's attention in year to suggest this is not correct, and it concluded that it could continue to rely on BDO's systems. We have placed reliance on the work undertaken by the Commission for this assessment.

### Quarterly monitoring of our regulatory requirements

43 The Commission reported the details in the quarterly monitoring reports issued to the firm during the year, including fee variation request and requests for non-audit services from the firm. Figure 12 details the firm's overall regulatory compliance RAG rating compared to other firms as report by the Commission.

Figure 12: 2015 Comparative performance for regulatory compliance

BDO	DT	EY	GT	KPMG	Mazars	PwC
-----	----	----	----	------	--------	-----

44 The firm performed well across all of the regulatory compliance requirements, with all but one of the 17 indicators being rated as green. We have included a summary at Appendix 3 of the results of the 2014/15 regulatory compliance monitoring RAG ratings, comparing the firm's performance against the overall performance for all firms. However, BDO was scored as red against the indicator measuring the timely delivery of whole of government accounts (WGA) submissions and it needs to ensure this is improved on for next year.

## Client satisfaction surveys

45 All firms agreed to undertake client satisfaction surveys for 2013/14 audits, and to report the results to PSAA. We specified questions to be included in the survey and asked firms to provide us with an analysis of the results.

46 The firm engaged independent consultants to conduct telephone interviews with a sample of audited bodies (32% of its portfolio of audits) on completion of their 2013/14 audit and achieved an overall response rate of 100% against this sample. Table 1 details the questions and the average score.

**Table 2- Satisfaction survey results**

Question	Average score (max. 10)
How satisfied are you overall with your audit?	8.1
How satisfied are you with the amount of contact with your Engagement Lead?	8.4
How satisfied are you with the amount of contact with your Audit Manager?	8.6
How satisfied are you with the technical competence and skills of your audit team?	8.3
How satisfied are you with your auditor's performance at committee meetings?	8.9
How satisfied are you with your auditor's understanding of the key issues and risks specific to your organisation?	8.5
How satisfied are you with the usefulness of your auditor's reports?	7.5
How satisfied are you with the timeliness of your auditor's reports?	7.1

47 These results show that audited bodies are, on the whole, satisfied with the level of service received from BDO and for 2014/15, BDO's rating for client satisfaction was green.

Figure 13: **2015 Comparative performance for client satisfaction**

BDO	DT	EY	GT	KPMG	Mazars	PwC
-----	----	----	----	------	--------	-----

48 The firm has undertaken an analysis of any improvements points raised in the survey and has committed to action any individual improvement points identified.

## Recommendations

### Recommendations arising from the 2014/15 quality review programme

**49** The key areas for improvement identified this year from file reviews are noted below, as taken from the body of this report:

#### *Financial statements*

- ensuring there is sufficient explanation documented on file to support the conclusions from all audit testing;
- ensuring there is always sufficient challenge of the narrative disclosures within accounts.

#### *WGA*

- ensuring that the WGA pack is reconciled to the primary statements and notes on a line by line basis.

#### *VFM*

- ensuring that VFM conclusion reporting makes clear the distinction between matters considered to be “significant risks” and other matters.

#### *HB*

- ensuring compliance with the certification instructions on housing benefit work, particularly around the need to substantively test where issues had been identified in the prior year.

**50** Appendix 4 provides details of the actions the firm has, or intends to take to address these improvement areas. We understand the findings from the QMR will be considered by the firm's Leadership Team and then communicated to staff.

## Appendix 1 – Weightings to calculate overall quality score

Table 3- weightings

<b>Audit element</b>	<b>Local government</b>	<b>NHS</b>
	<b>%</b>	<b>%</b>
Financial statements	60	70

## Appendix 4 - Summary of regulatory compliance and QRP improvement areas

Table 7- improvement areas

Area	Improvement required	Firm response
<p>Profession wide FRC annual report</p>	<p>A need for auditors to improve their scepticism in challenging the appropriateness of assumptions in key areas of audit judgment such as impairment testing and property valuation.</p> <p>A need for an improvement in the sufficiency and appropriateness of audit procedures being performed. This is common to many audit areas including revenue recognition.</p> <p>A need to adequately identify the threats and related safeguards to auditor independence and to appropriately communicate these to audit committees.</p>	<p>These are generic findings about the profession and are not all included in the report on this firm. However, we recognise that all of these are areas where all firms need to maintain constant focus and vigilance.</p> <p>At any one time, the firm has several initiatives aimed at maintaining and enhancing the scepticism of audit teams and the sufficiency and appropriateness of audit procedures being performed, including training, our internal quality assurance processes and our performance appraisal process. Similarly, we continually refine and improve our processes aimed at communicating threats and safeguards regarding independence to audit committees.</p> <p>The firm has an action plan in place to respond to the FRC's findings on the firm and which also has regard to profession-wide findings. The action plan remains under constant review to ensure that it is updated if new issues arise.</p>
<p>AQR review on PSAA work (across all firms)</p>	<p>Review, challenge and consider the reasonableness of management's documents and assumptions with respect to evidence obtained for the VFM conclusion, particularly in relation to increasing funding gaps at local government organisations; and in relation to the</p>	<p>We recognise the importance of learning from the AQR reviews of all firms and we will disseminate these findings to audit teams involved in PSAA work, asking them to pay particular attention to these matters in future audits.</p>

	<p>consideration of savings plans, the levels of reserves and budgetary controls.</p> <p>Clearly justify and document materiality considerations and not default automatically to the top of the materiality range.</p> <p>Consider property valuations as significant risk areas, particularly to ensure that when using external valuers in this respect they review and challenge management valuations. In addition, audit teams needs to verify the completeness and accuracy of source data used by experts and to evidence the consideration of ensuring that assets are revalued on the appropriate cycle in accordance with accounting policies.</p> <p>Evidence journals selected for testing by audit teams, while improving procedures to ensure the completeness of the population of journals considered for testing and following up on any identified control weaknesses.</p>	
Financial statements	<p>The firm should ensure there is sufficient explanation documented on file to support the conclusions from all audit testing.</p> <p>The firm should ensure there is always sufficient challenge of the narrative disclosures within accounts.</p>	<p>The Technical Liaison Group (TLG) has provided further guidance to staff on relevant aspects of documentation.</p> <p>A training event was held in April 2015 for relevant staff and emphasised the importance of audit challenge to the contents of disclosure notes.</p>
WGA	<p>The firm should ensure that the WGA pack is reconciled to the primary statements and notes on a line by line basis.</p>	<p>Seniors and above were reminded at a training event in April 2015 that due care must be taken with this work and discussed how this process can be made foolproof. Procedures to strengthen further the calling</p>

		<p>over procedures are being introduced.</p> <p>We will review the work programme to make it clearer that below threshold returns should check each line for PPE and pensions and not just the final total.</p> <p>We will update the 'common errors' schedule for these discrepancies for explicit checking by the auditor.</p>
VFM conclusions	The firm should ensure that VFM conclusion reporting makes clear the distinction between matters considered to be "significant risks" and other matters	Where relevant, when reporting in the future we will ensure significant risks are clearly distinguished from other matters of potential interest to those charged with governance and other stakeholders, and this message will be reinforced through our programme of sector-specific staff training. It should be noted that the context of this reporting was the transitional year for clinical commissioning groups where there were no set criteria to report against.
Housing benefit	The firm should ensure compliance with the certification instructions on housing benefit work, particularly around the need to substantively test where issues had been identified in the prior year.	<p>Our cold review identified a need for a minor improvement on one HB assignment, although we consider the circumstances meant that the consequences would necessarily have been very limited. Specifically, the file did comply with the certification instructions in substantively testing all areas where issues had been identified in the prior year with one isolated exception, and in this case other work was undertaken.</p> <p>Clarification of the guidance has been issued, requiring that if any similar circumstance were to arise in future, teams would carry out additional sample testing, regardless of other audit work done.</p>

Regulatory compliance	The firm should ensure that all WGA assurance statements are issued by the deadline.	In these particular instances this was outside the firm's control, as we are dependent on audited entities providing the information on time. We will, of course, continue to urge audited entities to provide us with the required information in accordance with agreed timetables. External consequences to audited entities for failing to provide auditors with timely returns and supporting working papers would assist in ensuring this deadline is complied with.
